INTRODUCTION

This Five Year Index (1960-1964) covers Volumes 27 to 31, inclusive, of the INSURANCE COUNSEL JOURNAL and supplements the General Index published in 1960.

A Subject-Matter Index begins on page 5 and an Index by Authors begins on page 31.

The Current Decisions Section and Reviewing the Law Reviews are indexed by issues only, there being no specific references to the individual cases and articles reviewed.

Committee reports are indexed under "Committees" and, also, under the particular topics covered to the extent allowed by the format and composition of each Report. These Committee Reports constitute invaluable sources of reference material and their use through this index is recommended.

Due to the comparatively short period of time covered by this Five Year Index (1960-1964), a Chronological Table of Articles such as appears in the General Index of 1960 has not been included.

Finally, recognizing that in the nature of things any index must be praised by some and damned by others, we hope that this will prove to be a convenient, ready-reference aid.
